α-Amino Acid
effect on kerosene biodegradation 782
Air
chlorinated aromatic hydrocarbons in sparrow, Poland 736
fluoride deposition near power plant 473
PAH in particles, Vietnam 728
solvent sensitivity of *Calliphora vomitoria* larvae 660
sulfur dioxide effect on plants 774
Alachlor
removal from water 9
Aldicarb
effect on lipid peroxidation 575
Alkane
residues in limpet, Canary Islands 665
Alkylbenzene sulphonates
biodegradation 94
Aluminum
alum sludge & nitrogen & phosphorus leaching 766
leaching from food containers 271
Ammonia
in coal gasification effluent 399
Ammonium Nitrate
effect on frogs 357
Antarctica
radioactive content of ice 139
Aryl glucuronides
Kow values 109
Arsenic
seasonal variation in mice & voles 567
in well water, Canada 478
Atrazine
soil leaching 87

Benzopyrene
hydrolase in marine species 639
Bioassay
artificial sediment for *C. riparius* 691
assessment of COMBO medium for toxicological tests 289
fish otoliths as pollution indicator 698
hippuric acid for toluene 1
influence of river water on Ames test 438
Kow values of aryl glucuronides 109
one step TCDD extraction method 282
rapid solid phase pesticide residue cleanup 277
storage & temperature of sediment 157

yellow monkey flower for metals 65

Cadmium
accumulation in centipede 538
accumulation in ground beetle 531
in Japanese carrots & rice 711
in Risso's dolphin & Cuvier's beaked whale 703
interaction with Zn in Tilapia 511
toxicity to zebra mussel 805
transfer between water & sediment 720
wheat content, PR China 546
Carbofuran
toxicity to flathead chubs 385
Chlorothalonil
effect on glutathione, hamster 582
Chlozolinate
reside analysis in water 33
Chromium
in Risso's dolphin & Cuvier's beaked whale 703
liver protein content, *C. carpio* 499
mobilization by organic acids 524
mutagenicity by Ames test 438
tolerant yeast 744
COMBO
suitability for toxicological tests 289
Copper
accumulation in fish 797
in vegetables & fruit, Chile 327
phagocytosis in earthworm 350
toxicity to zebra mussel 805
valve closure as scallop protective mechanism 520

Dacthal
off site movement 25
DDT
degradation in soil 219
toxicity to mummichog life stages 181
Deethylatrazine
soil leaching 87
Deisopropylatrazine
soil leaching 87
Dimethoate
detoxification enzymes in catfish 789
Dimethylformamide
interaction with epichlorohydrin 372
Dioxin
developmental toxicity in *O. latipes* 423

Effluent
ammonia & phenol from coal gasification 399
cytochemical response of mussel 430
toxicity of metal & ceramic effluent to algae 407
toxicological effects, trout hepatocytes 503
Endosulfan
effect on methane production 211
Epichlorohydrin
interaction with dimethylformamide 372
Exposure
aluminum leaching from containers 271
heavy metals in deer 80
Hg in alligator meat, USA 598
hippuric acid for toluene 1
interaction of epichlorohydrin & dimethylformamide 372
organochlorine pesticides in food, Belarus 235
organochlorine pesticides in human milk 243
pesticides in grain, Saudi Arabia 451
water treatment halogens, Spain 610
Flufenacet
soil persistence & mobility in corn & wheat 460
Fluoride
in deer bones near coal-fired plant 473

Geosmin
effect on trout hepatocytes 174
Genapol OXD 80
toxicity to aquatic organisms 133

Heavy metal
arsenic variation in mice & voles 567
Cd in Japanese carrots & rice 711
Cd transfer between water & sediment 720
Cd & Pb wheat content, PR China 546
Cd & Zn accumulation by ground beetle 531
Cd & Zn interaction in *Tilapia* 511
Cr mobilization by organic acids 524
Cr tolerant yeast 744
Cu accumulation in fish 797
Cu & phagocytosis in earthworm 350
Cu & Se in vegetables & fruit, Chile 327
Cu & valve closure in scallop 520
growth differences in rotifer 392
Hg altered brain response, rat 256
Hg & Zn & aspartate aminotransferase in catfish 343
Hg in crabs, Venezuela 320
Hg in sediments, Mexico 45

in deer near mines 80
in fish, Mediterranean Sea 673
in oyster, Mexico 73
in Risso's dolphin & Cuvier's beaked whale 703
in river water, Argentina 484
in sediment, Brazil 682
in sediment, Egypt 263
in sediment, water, earthworms, Spain 305
in surface sediments, Argentina 52
toxicity to zebra mussel 805
in water & monkey flower, Poland 65
manganese in gasoline 491
Ni & Cr & liver protein content, *C. carpio* 499
organotin in sediment & fish, Phillipines 297
Pb surface transport 312
Se & other metals in dead pelicans 590
TBTO reproductive effects in quail 415
Zn toxicity to amphipod 125
Human
mercury in urine, micromercurialism 553
metal concentration & water hardness 59
organochlorine pesticides in milk 243
organochlorine pesticides in milk 444
urinary hippuric acid for toluene 1
Humic Compounds
carp catalase inhibition 751
Hydroxyatrazine
soil leaching 87

Imazapyr
residue analysis in water 33
Imidacloprid
persistence in water 604

Lead
in Risso's dolphin & Cuvier's beaked whale 703
in oyster, Mexico 73
surface water transport 312
toxicity to zebra mussel 805
wheat content, PR China 546
Lindane
formulation & persistence on chickpea 467

Malathion
effect on lipid peroxidation 575
toxicity to aquatic organisms in rice 133

Manganese
in gasoline 491
Masculinization
of fish from paper mill effluent 150
Mercury
altered brain response, rat 256
aspartate aminotransferase in catfish 343
in alligator meat, USA 598
in crabs, Venezuela 320
in sediments, Mexico 45
in urine, micromercurialism 553
Methane
endosulfan effect on production 211
Methylisoborneol
effect on trent hepatocytes 174
Methylmercury
in Risso's dolphin & Cuvier's beaked whale 703
Molinate
residues in rice field canals 813
Monocrotophos
erythropoietic activity of fish 379
Mutagen
Cr by Ames test in river water 438

Naphthalene
ozonation of derivatives 101
Neem
effect on aquatic insects 365
Nickel
liver protein content, *C. carpio* 499
in oyster, Mexico 73
toxicity to zebra mussel 805

Oil
contamination along tanker routes 203
Organochlorine
DDT degradation in soil 219
developmental toxicity in *O. latipes* 423
exposure to otter, Spain 248
in brain & lipid of sparrow, Poland 736
in food & diet, Belarus 235
pesticides in human milk 444
pesticides in human milk, Swaziland 243
water treatment halogens, Spain 610
Organophosphate
pesticides in water, Venezuela 39

PAH
in air particles & sediment, Vietnam 728
in sediment, Florida 226
residues in limpet, Canary Islands 665
PCB
in owl eggs, Germany 15
PCDD
in owl eggs, Germany 15
PCDF
in owl eggs, Germany 15
Phenanthrene
effect on plankton 646
Phenol
humic compound carp catalase inhibition 751
in coal gasification effluent 399
toxicity to fish 195
Phthalate
interaction with aquatic organisms 759
PVC
degradation by fungi 335

Remediation
alkylbenzene sulphonate biodegradation 94
Cr tolerant yeast 744
kerosene biodegradation 782
ozonea hydrogen peroxide for alachlor 9
ozonation of naphthalene derivatives 101
prevention of dacthal movement 25
PVC degradation by fungi 335

Sediment
Cd transfer between water & sediment 720
heavy metals, Egypt 263
movement model, Egypt 618
PAH content, Vietnam 728
toxicity to *M. bahia & L. plumulosus* 157
Selenium
in dead pelicans 590
selenite toxicity to walleye 188
in vegetables & fruit, Chile 327
Sludge
Alum sludge & nitrogen & phosphorus leaching 766
toxicity to amphipod 654
Sodium nitrate
effect on frogs 357
Sulfur dioxide
fumigation effect on plants 774

Solvent
sensitivity of *Calliphora vomitoria* larvae 660
Surfactant
genapol OXD 080 toxicity to aquatic organisms 133

TBTO
reproductive effects in quail 415
TCDD
one step extraction method 282
Tetradifon
effect on *Daphnia magna* 167
Thiobencarb
residues in rice field canals 813
Tin
in sediment & fish, Phillipines 297
TBTO reproductive effects in quail 415

Urea
effect on frogs 357
tissue changes in *O. mossambicus* 117

Vinasse
genotoxic activity 560

Water
alkylbenzene sulphonate biodegradation 94
alum sludge & nitrogen & phosphorus leaching 766
artificial sediment for toxicity tests 691
as in well water, Canada 478
benzopyrenehydrolase in marine species 639
carbofuran toxicity to flathead chub 385
Cu accumulation in fish 797
cytochemical response of mussel to effluent 430
dimethoate detoxification enzymes in catfish 789
effluent effects on trout hepatocytes 503
fish otoliths as pollution indicator 698
fish masculinization from pulp effluent 150
hardness & trace metals 59
heavy metal & growth differences in rotifer 392
heavy metal in sediment, Brazil 682
heavy metals in fish, Mediterranean Sea 673
heavy metals in river water, Argentina 484
heavy metals in water, sediment, earthworms 305
Hg in sediment, Argentina 52
humic compound carp catalase inhibition 751
imazapyr & chlozolinate in water 33
imidachloprid persistence in water 604

Kow of aryl glucuronides 109
L. brevicula amylase polymorphism 633
malathion toxicity to rice aquatic organisms 133
metal & ceramic effluent toxicity to algae 407
monkey flower & metals, Poland 65
monocrotophos & erythropoietic activity in fish 379
neem effects on aquatic insects 365
organophosphorous pesticide residues, Venezuela 39
organotin in sediment & fish, Phillipines 297
oil contamination along tanker routes 203
otter organochlorine exposure, Spain 248
PAH in Florida sediment 226
PAHs & alkanes in limpet, Canary Islands 665
phenanthrene effect on plankton 646
phenol toxicity to fish 195
phthalate interactions with aquatic organisms 759
polar pesticides in rice field canals 813
radioactive content, Antarctic ice 139
removal of alachlor 9
runoff toxicity, Mexico 625
sediment heavy metals, Egypt 263
sediment movement model, Egypt 618
selenite toxicity to walleye 188
sludge toxicity to amphipod 654
tetradifon effect on *Daphnia magna* 167
toxicity of DDT to mummichog 181
trace metals in oyster, Mexico 73
water treatment halogens, Spain 610
urea induced changes in *O. mossambicus* 117
Zn toxicity to amphipod 125

Zinc
accumulation in centipede 538
accumulation in ground beetle 531
amphipod toxicity 125
aspartate aminotransferase in catfish 343
interaction with Cd in *Tilapia* 511
toxicity to zebra mussel 805
